Relay UK

Deaf or hard of hearing?

Try Relay UK

Provided by BT

Relay UK makes chatting easy when using the phone is tricky.

Whether you can speak or hear, or neither, the app will make sure you're always part of the conversation.

By connecting your phone to a Relay Assistant, you'll be able to read what the other person is saying and either talk or type your response.

Type in relay

Simply write what you want to say.

Read response

A realy agent will type back the other's response.

Start using Relay UK in three simple steps:

START

01

Download the app

Search for Relay UK on the App Store for iPhone or iPad, and at Google play for Android devices.

02

Link your number

Once you've downloaded the app, you just need to link your phone number to it. It only takes a minute.

03

Set up the app

One last thing to do. Tell the app how you'll be using Relay UK. Will you be typing and reading, or speaking and reading?
