<sup>1</sup> This KPI demonstrates consistency of performance across each 24 hour period and limits the opportunity of long periods of poor performance being masked with one period of really good performance

<sup>2</sup> Emergency relay calls are given priority over standard relay calls in the same way that voice emergency calls are prioritised over other calls

<sup>3</sup> This will be measured and reported on a bi-annual basis as part of an agreed Customer Research programme

<sup>4</sup> “Abandoned” means that the call is ended by the caller before the Relay Assistant has joined the call

<sup>5</sup> Figures based on Relay Assistant sessions where the average WPM is 41WPM or better; data not logged for individual calls  
All measures except for “>40 wpm” to be averaged over a monthly period

<sup>6</sup> This measure records the % of calls automatically transferred between Advisors across the relay platform

**Comments on Q4 2024-25 KPI report**

All KPIs were met during the quarter with the exception of the quality metric - which was just below target in February, and the transcription and accuracy measure, which was fractionally off target in the first 2 months of the quarter before getting back on track in March.

Quality continues to be a big focus point across the Relay Team and we expect performance to improve and become more consistent across these areas as we move forward.
